Subject: Rejection of Sen. Jennifer Fielder

Dear State Tribal Relations Interim Committee,

Senator Jennifer Fielder was the recent keynote speaker at the Citizens Equal Rights Alliance(CERA) speaking against American Indian rights and tribal sovereignty. This is unbecoming of a state senator whose responsibility is to represent all the members of her district. She has spoken out consistently against the CSKT water compact and tribal ownership of Kerr Dam, and emphasized this in her involvement in the American Lands Council where she expressed her opinion that, "My own opinion is that tribal governments have outlived their usefulness...All citizens should be treated equally.". She should be disciplined for her repeated denigration of Montana's tribal members.

Thank you for your kind consideration of this request.

Elizabeth Marum
